SOLAR SHADES

FOR YOUR VIEW AND COOL COMFORT.

LightWeaves® Solar Shades are an ideal choice for anyone wishing to maintain an exterior view while keeping heat out and coolness within. While maintaining your comfort, LightWeaves® also block UV rays, protecting interiors from damage and minimizing TV and computer screen glare. Choose higher openness fabrics (7% - 14%) for a better view to the outside, lower openness fabrics (1% - 5%) for better UV blockage.

EXTERIOR SOLAR SHADES

CONTROL YOUR INTERIOR ENVIRONMENT.

Either shade can be lowered or raised—pull down a Solar Shade during the day to keep it cool inside. It preserves your exterior view and blocks harmful sun rays and sun glare. At night, pull the shade down for maximum privacy.
